

## Urological & Medical Supplies

[www.CureMedical.com](http://www.CureMedical.com)

800-570-1778

Cure Catheters were created especially for you. We understand SCI/D and urinary retention personally, so we work hard to design our products with your needs in mind. At Cure Medical, we have a vested interest in the quality, safety, comfort and convenience of our intermittent catheters— as our founder’s health depends on them, too. Cure Catheters and Cure Closed Systems are not only safe and comfortable, but easy to use. Many are ready-to-use, right out of the package! Cure Catheters work just like any other intermittent catheter, but also offer Cure’s extra comfort features and fewer chemicals for your peace of mind.

We believe research is the key to developing a cure for urinary retention, spinal cord injury and central nervous system disorders. Simply by choosing to use Cure intermittent catheters or Cure closed system catheters, you are supporting the pursuit of a cure. That’s why we donate 10% of our net income to medical research. It’s called the Cure Commitment.

It’s that simple. Be part of the cure. Join the CURE NATION!

[www.abc-med.com](http://www.abc-med.com)

ABC Medical is a national leader in providing urological, ostomy, wound care, and bowel management supplies, delivered directly to customers’ homes. ABC Medical is a “Different Kind of DME,” offering an unmatched combination of personalized service, quality medical supplies, education and outreach to its customers. ABC stands for Adapt.Believe.Compete., representing the Company’s mission of providing its customers unparalleled support to adapt to their situation, believe in themselves, and compete every day. ABC Medical is committed to the adaptive sports community by supporting over 150 events every year, making an impact on thousands of athletes and hundreds of organizations that provide opportunities for people with a disability to stay active and healthy. ## Urological & Medical Supplies

**Apple West**  
Home Medical Supply

[www.AppleWestHMS.com](http://www.AppleWestHMS.com)

510-868-9175 or 888-579-3765

Apple West does so much more than just provide medical supplies. Many of our employees are disabled and use the products and services that we provide. We are in the community leading and attending support groups and hosting events. We accept Medicare, Medi-Cal, Medi-Medi, many managed care providers and most private insurances.

Apple West is a specialized medical supply company supporting those in long-term need of urology supplies (e.g. catheters). Our goal is to improve the daily routine of our clients' bladder and bowel programs. Although we are specialized, we have access to a full line of home medical supplies. We have access to ALL urological brands and catheters.

Apple West works with you to understand your needs. There is no guess work in great customer service and we make switching to us easy and effortless. We do all the paperwork for you. We'll discuss your current supplies to determine if there are new and improved products available for you to try. We will NEVER switch you to other products without speaking with you first. You are guaranteed personal attention.

Take the hassle out of your medical supplies; give Apple West a call and ask for Tom.

**Wheelie Medical Supply**

[www.WheelieMedicalSupply.com](http://www.WheelieMedicalSupply.com)

661-510-4443 Anthony Orefice

Wheelie Medical Supply is much more than just a medical supply company. We invest in our clients' future. Because our founding partner, Anthony Orefice, is a T4, T5, T6 paraplegic, we understand the challenges our clients face. As part of our mission to serve our clients' needs beyond just fulfilling supply orders, Wheelie Medical Supply is also committed to helping our clients reconnect to full and active lifestyles, including playing sports, driving, independent living and pursuit of employment. We guarantee you will get the attention you deserve. The bottom-line is, where most supply companies have done their job once supplies are delivered, that is just the beginning of our relationship with our clients.

## Urological & Medical Supplies
