### **ReWalk Robotics**

[www.rewalk.com](http://www.rewalk.com)

508-251-1154

ReWalk Robotics, the leading exoskeleton technology company, develops the ReWalk™ robotic exoskeleton, the most widely used, most studied and first available for personal ownership. ReWalk is a wearable robotic exoskeleton that provides powered hip and knee motion to enable individuals with Spinal Cord Injury (SCI) to stand upright and walk. The system provides user-initiated mobility through the integration of a wearable brace support, a computer-based control system and motion sensors. The system allows independent, controlled walking and aims to give persons with spinal cord injuries an experience that is as close to natural walking as possible. Contact them today for a complimentary screening to see if you could be a candidate for the ReWalk, and to hear how they support you every step of the way.

## Wheelchairs & Durable Medical Equipment

### **Casa Colina Rehabilitation Wheelchair & Seating Program**

<http://www.casacolina.org/Outpatient-Services/Outpatient-Center/Specialized-Services/Wheelchair-Seating.aspx>

909-596-7733 ext. 3500

When you spend hours in a wheelchair or seat each day, you want it to fit like a glove – and fit your lifestyle. This is exactly why Casa Colina's Wheelchair & Seating Program was created for people of all ages. We understand the complex needs of individuals who require a wheelchair and specialized seating. This is why we rely on state-of-the-art computer technology to help us determine the right comfort and support of a seat cushion. We also look at factors such as skin protection, mobility and functionality.

### **Alber USA**

[www.alber-usa.com](http://www.alber-usa.com)

888-426-8581

Alber offers a variety of add-on drives and portable wheelchair motors that enlarge the benefits of a manual wheelchair. Persons lacking in physical strength to propel a manual wheelchair all day long can rely on the E-motion and Twion Power Rim Activated Power Assist or convert a manual wheelchair into a portable lightweight powerchair with the E-fix Power Add-On. All these power add-on drives can be retrofitted to an existing wheelchair with a special bracket. The wheelchair does not need to be modified and maintains its characteristics such as portability.

## Wheelchairs & Durable Medical Equipment

[www.gofreewheel.com](http://www.gofreewheel.com)

208-571-2051

Whether you have a rigid frame or a FOLDING wheelchair, the FreeWheel is your ticket to safely and quickly roll over any type of terrain. Curbs, dirt trails, grass, gravel, snow and sand are no longer an obstacle. With the FreeWheel your wheelchair casters are lifted off the ground turning you into a 3-wheel, all-terrain chair. The FreeWheel makes it easier to wheel yourself and makes you feel more secure when someone is pushing you. No more staring at the ground watching for obstacles, or wasting energy popping a "wheelie" at every rough spot. With the FreeWheel you roll with ease.

### **Beach Trax**

[www.accesstraxsd.com](http://www.accesstraxsd.com)

Take control of your accessibility with Beach Trax- a lightweight, foldable, portable pathway for access across uneven terrain such as sand, gravel or grass. Removable hinges allow customization to make any turns or platforms. Thirty feet weighs under 60 lbs and can be unfolded over the terrain in 1 minute by 1 person. When folded for storage or transport, 30 feet stacks approximately 3 inches thick, allowing you to easily fit 90+ feet in your car. With Beach Trax, you can get back to doing the outdoor activities you enjoy without worrying about barriers to access. Rent or buy today!

### **WHILL**

[www.whill.us](http://www.whill.us)

844-699-4455

## Wheelchairs & Durable Medical Equipment

### **SmartDrive by Max Mobility**

[www.max-mobility.com](http://www.max-mobility.com)

The SmartDrive Wheelchair Power Assist device is intended to provide auxiliary power to manual wheelchairs to reduce the pushing power needed by their users. The SmartDrive is surprisingly powerful to cruise up the steepest ramps, sidewalks, and even thick padded carpet.

### **Grit Freedom Chair**

[www.gogrit.us](http://www.gogrit.us)

MIT-designed patented lever drive is easier to push than regular wheelchairs, and is way more powerful. Propelled by levers because they amplify your force, making it easier to self propel, especially outdoors on grass, sand, and rough terrain. Research shows that lever drives are ergonomic and a great source of low-impact cardio exercise. This means that the GRIT Freedom Chair lets you cruise faster than walking speed on smooth ground, but also gives you the power you need to climb over hills and roll through grass, dirt, and sand.

### **Spinergy**

[www.spinergy.com](http://www.spinergy.com)

Spinergy is a pioneer in developing revolutionary wheels in the world of wheelchair sports, as well as for everyday use. Recently, they expanded their wheelchair division by manufacturing the ZX-1 Power Add-On. The ZX-1 is a durable, compact power accessory for manual chairs that allows users to instantly and independently attach to it for optional use.
